

Products that are suitable for VEGETARIAN diets

Dear Customer,

This is a list of M&S products that are suitable for vegetarian diets. These foods have been produced under controlled conditions to prevent cross contamination.

This list of products has been divided into different food categories (such as bakery, meals and groceries) to make it easier to navigate through our ranges. This list does not contain categories such as basic fruit and vegetables, as these are the unprocessed raw products, or foods served at our fresh counters or and cafes due to the risk of cross contamination. Any of our M&S staff will be able to help you find products from this list in our stores.

These lists are updated on a monthly basis to capture new products and recipe changes. You can request a new list directly from nutrition@marksandspencer.com or download your own copy from www.marksandspencer.com/health

Products on this list will not contain any of the following ingredients:

- Meat, fish or poultry protein or any products derived from slaughtered animals (e.g. animal lecithin, animal rennet)
- Animal carcass fats (including suet, lard or dripping)
- Meat, fish or bone stock
- Gelatine, aspic, cochineal or carmine

Further information

For further information or to request another list please get in touch directly at nutrition@marksandspencer.com or speak to our Customer Services team on 0845 302 1234.

For more information about vegan diets please visit our health website www.marksandspencer.com/health
